काठमाडौं उपत्यकामा बागमती र त्यसका सहायक नदी सफा बनाउन यहाँका पहाडमा 198 वटा पोखरी बनाइने भएको छ । भूकम्प, पहिरो, संरचना खराबी लगायतको कारणहरूले काठमाडौंमा डुबान तथा बाढिको भयावह जोखिम उत्पन्न हुन सक्छ । यस बिषयमा यहाँहरूको सुझाव के छ ?

Crisis

In the hills of the Kathmandu Valley, there are plans to construct 198 ponds to clean the Bagmati River and its tributaries. However, there are concerns regarding the potential risks associated with these ponds, such as earthquakes, landslides, and structural failures, which could lead to drowning and increased flood risks in Kathmandu. We would like to hear your suggestions on this matter.

Future Plan

- Facilitate for the meaningful participation of Nepal in APMCDRR 2024
- Host National Conference on Chure Issue
- Host National Conference on DRR
- Collect due membership fee from members
- Strengthen the Capacity of Provincial Committee
- Make biggest DRR Network in each province
- Form Provincial Platform for DRR in all Provinces
- Make a webpage of each province in DPNet website
- Organize at least one Provincial Conference on DRR
- We will have AGM soon to formulate future plan for 2081/2082 FY

Thank you!
